All kind of creative possibilities that glass can offer are fully expressed in **Wave Murano Glass** collections, thanks to the master **Roberto Beltrami**, who is the author of vases, hanging lamps, sculptures, furniture, between art and design.

---

Historic restyles created with avant-garde techniques and totally innovative methods born from formal and radical changes are the basis for many original collections, such as **PUPI**, the pop-comic Murano Glass collection, made of % hand-blown Murano Glass, completely custom made and personalized.

The PUPI collection includes a lot of **characters**, such as cats, rabbits, bears, zebras, elephants, giraffes, crabs, snakes, reindeers, monkeys, but also doctors, cowboys, super heroes, businessmen, ninjas, baseball players.

Unique sculptures in which the customer can choose the animal species, sample work outfits, clothes and gadgets by playing with the imagination and creating **its own work of art.**
